

SHUBHANKAR KULDIP LOKHANDE

Java Backend Developer | Software Developer

lokhandeshubhankar9@gmail.com | <https://shubhankarlokhande.github.io> | (+91) 9356513137

PROFESSIONAL SUMMARY

Java Backend Developer and Computer Engineering graduate with hands-on training from QSpiders. Proficient in Java, Spring Boot, Spring MVC, Hibernate, JPA, REST API development, SQL, and MySQL. Experienced in building backend-driven, database-centric applications using OOP principles and MVC architecture. Currently working as a Freelance Java Developer, delivering full-stack backend solutions for real-world clients across healthcare, enterprise, and veterinary sectors. Published a JETIR research paper on AI-based fraud detection, demonstrating strong problem-solving and analytical skills.

SKILLS

- **Languages:** Java, SQL, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Spring AI, Hibernate, JPA, REST APIs
- **Databases:** MySQL, JDBC
- **Tools & Platforms:** Git, GitHub, Eclipse, Postman, Linux, Maven
- **Concepts:** OOP, MVC Architecture, CRUD Operations, Database Design, Backend Development, API Development

EXPERIENCE

Full Stack Development Training Internship | QSpiders, Wakad

- Training in Java, SQL, HTML, CSS, JavaScript.
- Hands-on front-end & back-end development + DB management.
- Learning backend development using Java & Spring.

Freelance Full-Stack Developer | Self-Employed (Current)

- Designed and delivered end-to-end Java Spring Boot backend applications for 2 real clients across enterprise and veterinary sectors.
- Managed full project lifecycle — requirements, backend architecture, database design, and version control via Git/GitHub.

Project 1 — PeopleOS (Enterprise Web App)

Client: Aarco Engineering Projects Pvt. Ltd., Gat No 77 L, Plot No 7&8, Jyotibanagar Talwade, Nigdi, Pune 412114

- Developed a Spring Boot web application handling 5 core business modules: users, employees, departments, inventory, and budget.
- Implemented MVC Controllers, Service layer, and Spring Security for authentication and role-based access control.
- Designed MySQL database schema via JPA/Hibernate across 5 relational tables with full CRUD operations.

Project 2 — Integrated Veterinary & Pharma Platform

Client: Rasventis LLP | Industry: Manufacture of Laboratory / Pharmaceutical Products

- Integrated platform combining veterinary clinical care with pharmaceutical operations for a pharma-vet client.
- B2C module: professional grooming and WHO-GMP compliant vaccination programs with digital records.
- B2B module: global API sourcing (USDMF/CEP compliant) and cold chain logistics for international exports.

Project 3 — SkillBridge (AI-Driven Career Tool)

Personal / Portfolio Project

- Developed a career gap analysis tool using Spring Boot and Spring AI integrated with Google Gemini for automated resume-to-job matching.
- Implemented PDF parsing to convert resumes to plain text; AI engine returns match scores and identifies missing skills.
- Designed progress-tracking module with MySQL + Hibernate JPA to store match history; secured with Spring Security.

ACADEMIC PROJECTS

Secure Hospital Management and Appointment System

Technologies: PHP, HTML, CSS, JavaScript, MySQL

- Hospital management and appointment booking system with secure data handling.

WorkNest – Employee Management System

Technologies: Spring Boot, JPA, MySQL, REST APIs

- CRUD-based employee system with REST APIs and MySQL storage.

EDUCATION

- **B.Tech – Computer Engineering** | ADYPU, Pune | CGPA: 6.79/10 | 2021 – 2025
- **Diploma – Computer Engineering (MSBTE)** | D.Y Patil, Lohegaon | Percentage: 75% | 2022
- **Sardar Dastur Hormazdiar High School, Pune** — SSC (10th) | Percentage: 60.80% | 2019

POSITION OF RESPONSIBILITY

Team Lead – Final Year Project (DrTalk)

- Led a 4-member team and managed coordination, timelines, and front-end development.

Organizer – Workshops & Tech Seminars

- Assisted in organizing Azure Cognitive Services and Test Yantra seminars for CS students.

Crowdfunding Intern | Muskurahat Foundation (Dec 2025)

- Performed fundraising outreach, donor engagement, and remote reporting for NGO initiatives.

ACHIEVEMENTS

Published Research Author – JETIR (April 2025)

- Authored and published a paper on AI-based fraud detection and security in doctor appointment systems.

Generative AI Certification – Simplilearn SkillUP powered by Google Cloud (April 2026)

- Successfully completed course covering Generative AI fundamentals, LLMs, and practical AI applications. Certificate Code: 10069405.
